

HANDY APPLICATIONS OF NANOPARTICLES, READY TO USE NANOPRODUCTS

TECNAN produces and commercializes at industrial scale advanced nanoparticles for multisectoral applications as well as other nanoproducts base on them. Thanks to its wide experience in nanoparticles dispersion and treatment, the company has achieved the direct introduction of nanotechnology into the market offering a broad range of technical solutions for different sectors by means of a line of ready to use nanoproducts:

- **AUTOMOTIVE SECTOR:** TECNAN presents a potential water repellent product for automotive glass improving visibility in rain conditions and therefore, increasing security when driving. Besides, it reduces the adhesion of ice and presents long durability. Apart from its excellent price-quality balance, in its easy application it doesn't release hydrochloric acid, contrarily to competitor ampoule products. (TECNADIS GWR)
- **CONSTRUCTION SECTOR:** TECNAN offers different solutions to protect construction materials against water, graffiti, oil and stains. These products are totally transparent, maintain the materials breathability, do not react with substrates, have an **excellent performance** and present long durability, always **at very competitive prices**. (AQUASHIELD Ultimate, TECNADIS PRS PERFORMANCE, TECNADIS AQUAPORE)
- **METAL SECTOR:** TECNAN provides advanced solutions to prevent dirt particles and food leftovers from sticking on the metallic surface thus enabling an **easy cleaning**. These transparent solutions also show good resistance to acids, bases and solvents keeping the natural colour and structure of the metallic surface. (TECNADIS METALCOAT ETC)

Message to visitors

TECNAN S.L. is interested in distributors who can introduce its products into different markets and clients from the construction sector such as building companies, rehabilitation and restoration companies, construction materials manufacturers; from the automotive sector such as windscreen repair companies, workshops, glass manufacturers, car manufacturers; and from the metal sector.

Visit TECNAN at: Spanish Pavilion - East Hall 5/Booth 5Q-17

Tecnología Navarra de Nanoproductos S.L. (TECNAN S.L.)

Address: Área Industrial Perguita, Calle A Nº1, 31210 Los Arcos (Spain)
WEB site: www.tecnanshop.com
Activity area: Industrial Nanotech production & RTD
Main Activity: Production of nanoparticles and final nanoproducts
Contact person: Claudio Fernández Acevedo
Position: Chairman of the Board
Phone: (+34) 948 640 318
Fax : (+34) 948 640 319
Email: claudio.fernandez@tecnan-nanomat.es
