

Entrepreneurial Position in in-vitro Diagnostics

Job Summary

The Center for collaborative research in biomaterials, molecular imaging and regenerative medicine, CIC biomaGUNE, is seeking for a motivated, market-biased, person to lead an entrepreneurial project in the field of In Vitro Diagnostics (IVD).

Leveraging on sound scientific results and secured public funding, the Biomolecular Nanotechnology Lab at CIC biomaGUNE led by Prof. Cortajarena is establishing a ground-breaking technology for the development of accurate, sensitive, and inexpensive detection assays based on novel nanosensors. Now, CIC biomaGUNE has endeavored to evaluate the viability of the business model and validate this technology to bring it to the market, and is looking for the right person to lead the transition from laboratory to clinical settings. With the support of the research team, the technology transfer staff of the center the incumbent will deploy business activities with the aims of increasing the Technology Readiness Level (TRL) of the technology, validating the business model, and pursuing the market implementation thereof. Throughout the project the successful candidate is also expected to explore further funding sources, both public and private, and to lead the incorporation of the spinoff.

Education Level:

- A degree in a relevant field (biochemistry, chemistry, material science, or a related discipline) and scientific background combined with education on business economics and market-oriented activities, preferably in technological and biomedical start-up settings.

Skills:

- Energetic, self-motivated and able to engage with investors, industry, research institutes, universities and government agencies.
- Excellent communication, negotiation, and interpersonal skills.
- Strong planning and organizational skills with an ability to handle multiple priorities.
- Readiness to commit to the further development of the entrepreneurial project beyond the duration of the labor relationship with CIC biomaGUNE.

Duration:

The successful candidate will be hired by CIC biomaGUNE for 12 months. **Candidates should submit a motivation letter, CV and the contact information of two referees.**

Envisaged Job Starting Date: Starting date at the earliest convenience

Application Deadline: 2024-02-16

Project Funding:

- NanoIVDAb - PDC2021-120957-I00 - (Agencia Estatal de Investigación - AEI)
- Nano-imaging - 101069356 - (European Research Council (ERC) - Horizon Europe)

About CIC biomaGUNE

CIC biomaGUNE, located in the Science and Technology Park of Gipuzkoa (Donostia-San Sebastián), is a leading research center in the area of bionanomaterials, molecular imaging and regenerative medicine and counts with more than 160 people from 24 countries. The activity of CIC biomaGUNE is conducted by a team of 11 international and dynamic research groups, supported by flexible and efficient management teams and a unique research infrastructure including the Molecular Imaging Facility, one of the biggest preclinical imaging research infrastructures in Europe.

CIC biomaGUNE maintains a vibrant weekly scientific seminar program by visiting leading scientists. Additional training in soft skills and technologies covered by the CIC biomaGUNE technical platforms is offered to researchers within the in-house training program.

CIC biomaGUNE is committed to developing an HR Strategy for Researchers, designed to bring the practices and procedures in line with the principles of the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers (Charter and Code).
