

Call for expression of interests of candidates for Ikerbasque Fellow Tenure-Track position

Job Summary

Ikerbasque - the Basque Foundation for Science, has launched a new call to support 5-year tenure-track contracts, within the Ikerbasque Research Fellow program. CIC biomaGUNE is actively seeking to welcome outstanding candidates working in Synthetic Bioengineering for biomedical applications.

We are looking for candidates with a strong track record in the broad field of Biomaterials Engineering. Experience in the design of biomaterials, bioprinting, flexible materials, artificial scaffolds, and 3D functional engineered models, aiming at the understanding and control of the material properties for biomedical applications will be valued.

These five-year Fellowships are directed to promising young researchers; and intend to offer a track towards a PI role and independent research. Ikerbasque researchers are encouraged to apply for financial support in national and international competitive calls to lead R&D projects and to develop their own activity and research agenda. Ikerbasque is committed to offer a long-term career to the research community: Fellows in their 5th year can be assessed for a permanent position.

The applicants **must have their PhD completed between 01/01/2013 and 31/12/2021**.

Applications from women are especially welcomed. The eligibility period will be extended under special circumstances such as maternity.

Interested candidates should submit the following information before **the 29th of February 2024**:

- Cover Letter
- Curriculum Vitae
- Detailed description of research interests and research plan
- Contact information of three colleagues who can provide reference letters

Please note that this deadline is BEFORE the official deadline of the Ikerbasque call (which is the 15th of March 2024 at 13:00 CET).

About CIC biomaGUNE

CIC biomaGUNE, located in the Science and Technology Park of Gipuzkoa (Donostia-San Sebastián), is a leading research center in the area of bionanomaterials, molecular imaging and regenerative medicine and counts with more than 160 people from 24 countries. The activity of CIC biomaGUNE is conducted by a team of 11 international and dynamic research groups, supported by flexible and efficient management teams and a unique research infrastructure including the Molecular Imaging Facility, one of the biggest preclinical imaging research infrastructures in Europe.

CIC biomaGUNE maintains a vibrant weekly scientific seminar program by visiting leading scientists. Additional training in soft skills and technologies covered by the CIC biomaGUNE technical platforms is offered to researchers within the in-house training program.

CIC biomaGUNE is committed to developing an HR Strategy for Researchers, designed to bring the practices and procedures in line with the principles of the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers (Charter and Code).
