

AVANZARE, www.avanzare.es www.graphene.avanzare.es

AVANZARE provides its customers **with high-performance nanomaterials and nanotechnology based solutions**. The company is specialized in the development & commercialization of specialty additives, mainly for the world of plastics and rubber, with international presence in the automotive, aeronautic, fabric, plastic, rubber, paint and building industries, the wire & cable sector and manufacturers of household appliances and packaging wood, paper, among others

AVANZARE has extensive expertise in 2D materials research, production and industry applications and we have been providing our customers with **bulk graphene** for more than five years now. AVANZARE is a highly reputed company in the **Graphene Sector**, and one of the main drivers of the leading international Research and Development project GRAPHENE FLAGSHIP.

We offer **Bulk graphene, graphene dispersions and composites with different lateral sizes and oxygen content, from graphene oxide to pristine graphene**. In order to sustain and meet our customer's high standards, quality controls procedures are conducted.

CONTACT DETAILS

- AVANZARE INNOVACION TECNOLOGICA S.L.
- **Address:** Avd Lentiscars 4-6 (Polígono Lentiscars) 26370 Navarrete, (La Rioja) SPAIN
- **WEB site:** www.avanzare.es, www.graphene.avanzare.es
- **Contact person:** Sara Ortega, Sortega@avanzare.es; Javier Perez, jperez@avanzare.es
- **Phone:** (+34) 941 587027 Fax : (+34) 941 441422
- **Activity area:** Nanoparticles synthesis, Graphene, antistatic materials.
