

Nanotechnology that will impact the Security & Defense sectors to be discussed at NanoSD2015 conference

Madrid (Spain): 24 August 2015

Nano for Security & Defense International Conference (**NanoSD2015**) will be held in Madrid, Spain (September 22-25, 2015). The conference will provide an opportunity to discuss general issues and important impacts of nanotechnology in the development of security and defense. A broad range of defense and security **technologies and applications**, such as nanostructures, nanosensors, nano energy sources, and nanoelectronics which are influencing these days will be discussed.

Following the success of the previous edition, **NanoSD2015** will again present current developments, research findings and relevant information on nanotechnology that will impact the security and defense.

NanoSD2015

Topics

Sensors | Textil | Nano-Optics | Nanophotonics | Nanoelectronics | Nanomaterials | Nanobio & Nanomedicine | Energy | Nanofood | Forensic Science

Do not miss presentations from well known institutions

Lawrence Livermore National Laboratory (USA) | Ministry of Economy, Industry and Digital (France) | European Defence Agency (Belgium) | Metamaterial Technologies Inc. (Canada) | Graphenea (Spain) | Consiglio Nazionale delle Ricerche (Italy) | Gemalto SA (France) | ICFO (Spain) | The University of Texas at Dallas (USA) | International Commercialisation Alliance of Israel | Grupo Antolin (Spain), among others

Do not miss the opportunity to meet the key players of the Security & Defense industry. Prices starting from 350€ and 495€ for students and seniors respectively.

The deadline for [poster submission](#) is **September 04**.

Keep track of the latest developments and trends on Nano for Security & Defense.
